SUMMARY

- 20+ years of leadership in AI-enabled analytics, enterprise platforms, and payments, with director-level product management expertise.
- Hands-on cloud and systems architecture background enables credible evaluation of platform trade-offs and technical requirements.
- Proven track record translating data, GenAI, and agentic capabilities into scalable products and measurable outcomes.
- Secured \$2M+ in capital for enterprise AI, reduced cloud time-to-market by 20%, and led product teams delivering AI platforms at global scale.
- Created products with embedded responsible AI governance (NIST, EU AI Act) and driven CXO-level alignment on strategy, roadmap, and investment.
- Currently leading roadmap and go-to-market for Qualys's agentic AI security portfolio.

EXPERIENCE

Director of Product Management - Qualys (Enterprise Cybersecurity, Agentic AI) Feb 2026 – Present

Driving roadmap and GTM for Agentic AI security suite

Pune

- Defined product vision and roadmap for Qualys's Agentic AI security platform, translating multi-agent and LLM capabilities into a GTM strategy adopted across 15+ enterprise pilot accounts in the first two quarters.
- Partnered with Engineering, UX, and Data Science to prioritize AI-driven security analytics features, cutting feature scoping cycle time by 15% through structured cross-functional rituals.
- Led CXO-level evangelism sessions on Agentic AI capabilities, converting 40% of pilot conversations into paid proof-of-concept commitments within the first quarter of rollout.
- Built the initial requirements and success-metrics framework for multi-agent orchestration features, setting the baseline for the platform's first GA release.

Fractional CPO / Independent AI Product & Strategy Consultant (B2B & B2C) Jul 2024 – Present

Shipped B2C healthtech LLM product alongside B2B AI advisory

Remote

- Defined product strategy for a consumer healthtech app where an LLM answers users' medical queries in real time, owning the query-accuracy and response-safety framework from MVP through launch.
- Served as Fractional CPO for early-stage AI founders across B2B and B2C, defining roadmaps and user personas that took 3+ 0-to-1 concepts from raw idea to market-ready SaaS in under 4 months each.
- Architected a computer-vision MVP for a Digital Wellness startup, running rapid A/B test loops that lifted user engagement by 24% within the first 6 weeks of launch.
- Advised a B2B AgriTech and Crop Insurance platform on LLM and RAG architecture, cutting infrastructure cost per query by 35% while scaling to 50K+ farmer queries monthly.
- Designed compliance protocols aligned to NIST and the EU AI Act, institutionalizing a "Trust by Design" framework adopted across 2 client engagements.

Head of Cloud Engineering - BP (Global GenAI & Cloud Security)

Jul 2021 – Jan 2026

Secured \$2M+ AI funding, cut time-to-market 20%

Pune

- Secured \$2M+ in capital allocation for enterprise AI initiatives by presenting data-backed ROI models to C-suite executives across 15+ business units.
- Designed and launched the "AI Defense Ecosystem" platform (Prevention, Detection, Governance modules), scaling adoption across BP's global cloud security portfolio.
- Built the corporate "AI Maturity Index" and deployment framework, accelerating cloud time-to-market for new applications by 20%.
- Directed a 25-person cross-functional engineering and product team, achieving a 94% retention rate over the tenure.
- Owned GenAI and cloud security product strategy across 15+ global business units, aligning security, engineering, and compliance stakeholders on a shared roadmap.
- Established the AI Policy Foundry module to automate governance policy updates, cutting manual policy review cycle time by an estimated 50%.

Lead Principal Consultant - Amdocs (Cloud Modernization)

Jan 2020 – Jul 2021

Secured multi-million dollar contracts via technical RFPs

Pune

- Authored technical product proposals and RFP responses that directly secured multi-million dollar client contracts across cloud modernization engagements.
- Founded the Cloud Transformation Center of Excellence, standardizing multi-tenant data migration playbooks adopted across 10+ client engagements.
- Led cloud modernization initiatives embedding next-gen analytics capabilities into legacy enterprise systems for 3 major telecom clients.
- Partnered with client engineering and business stakeholders to translate modernization roadmaps into phased delivery plans, reducing migration risk incidents by 25%.

Technical Architect, Payments Products - Western Union Business Solutions Jan 2018 – Jan 2020

Cut infrastructure costs 70% via serverless re-architecture

Pune

- Slashed core cloud infrastructure costs by 70% by re-architecting legacy processing systems into serverless, cloud-native frameworks.
- Owned technical product discovery for voice-based payment features powered by NLP models, translating customer research into engineering requirements.
- Designed a blockchain-integrated KYC-as-a-Service and compliance platform, validated through direct executive sign-off before rollout.

Software Architect - Pitney Bowes

Dec 2013 – Jan 2018

Cut onboarding time 20% via microservices migration

Pune

- Transitioned monolithic architecture to microservices via Domain-Driven Design, accelerating engineering onboarding efficiency by 20%.
- Optimized high-volume order search using tailored Elasticsearch layers, measurably improving platform performance and user satisfaction.

EARLY PROFESSIONAL FOUNDATION

Principal Financial Group | System Test Lead (2007 – 2013) — Designed risk-based test frameworks, automated script execution, and resource plans.

PTC | **Cybage** | Test Engineer (2005 – 2007) — Orchestrated multi-OS functional verification and API level automated testing infrastructure.

EDUCATION & CERTIFICATIONS

Professional Certificate, Data Science & AI

2024

Indian Institute of Management, Kozhikode

MBA (IT)

2003 – 2005

Symbiosis International University

Bachelor of Computer Science

2000 – 2003

Bangalore University

THOUGHT LEADERSHIP & PORTFOLIO

Writing: Published 15+ articles on LinkedIn on Agentic AI, enterprise product strategy, and cloud security, read by a growing product and engineering audience (see Featured section: [linkedin.com/in/mayukh-ghosh-310a327](https://www.linkedin.com/in/mayukh-ghosh-310a327))

Buils: Ships and open-sources hands-on AI product builds, including the AI Defense ecosystem mentioned above, documented with problem framing, trade-offs, and evaluation results (GitHub: github.com/mayukhg)

SKILLS

AI & Product: Agentic AI Strategy & Roadmaps, Multi-Agent Systems Orchestration, LLMs & RAG, GTM Strategy, CXO-Level Evangelism

Cloud & Security: Enterprise Cloud Platforms (AWS), Cybersecurity & Governance Architecture, Risk & Compliance (NIST, EU AI Act)

Certifications: AWS Certified Solutions Architect, AWS Certified Security – Specialty, Machine Learning in Production (DeepLearning.AI)
